

PS25™
AUDIT

Measure psychological safety. Drive business performance.

A PS25™ Audit shows your organization in a fresh, new way.

You can now:

Improve the KPIs that matter most.

Move the needle on your biggest challenges.

Identify and unlock unrealized team performance.

Get clear insights that reveal how and why teams are performing and coping.

Improve your organization's revenue, retention and morale.

We'll prepare a detailed, tailored game plan based on your priorities.

For a large national company,

Within 91 days the company experienced:

+14% sales conversion rate | **+2.9%** average transaction value | **+\$1,382** monthly revenue per employee

PS25™

The world's first survey tool that measures organizational psychological safety.

The PS25™ measures the unrealized performance potential in your workplace.

Unlock untapped business potential.

Understand the psychological safety levels in your teams and how this impacts your business.

We calculate your potential business gains when you improve the psychological safety levels in your teams.

**7 steps that will measurably
improve your organization.
Guaranteed.**

PS25™ AUDIT

Learn how your staff really feels.

A 3 minute confidential survey is all it takes to measure psychological safety in 25 important areas, at any level of your organization.

1

Reliably assess leadership skills.

The Manager Influence score highlights managers with superior skills and those who need support.

3

Quantify risk and opportunities.

We use the insights above to measure the financial impact of risks and opportunities, so you can set priorities.

5

Monitor your progress.

Your first PS25™ Audit provides a base-line. Regular surveys show your productivity progress.

7

Find patterns in demographics.

Use any demographic you like such as age, gender, length of service, job title, type of employment, etc.

2

Link to your metrics.

Our statistical matrix finds significant correlations between PS and your financial and non-financial metrics.

4

Plan targeted interventions.

We can support you with leadership training and coaching for any level and intensity.

6

Discover unrealized potential in your organization.

Your PS25™ Score indicates the health of your workplace environment and how that environment is impacting people working together and getting work done.

See How Your PS Scores Are Driving your Bottom Line.

¹After an exhaustive study, Google called psychological safety the **most important factor in team performance**.
